

COMPANY PROFILE

CROWN Solar Enterprises & Consultants (CSEC), is a GST as well as **MSME** – Micro registered Firm as manufacturer and Service provider. It is headed by **Mr. K Chandra Sekhar** who is having more than 25 years of expertise in Design, Project report preparation, Manufacture, Supply and Installation of Perimeter Intrusion Detection Systems.

CSEC is a Distributor for **M/s CROWN Solar Power Fencing Systems (CSPFS)** who is an approved OEM / Vendor in major Government / Corporate organizations like Airport Authority of India, Defense Research Development Organization (DRDO), Bharat Electronics Ltd., Director General Naval Project (DGNP), Chief Engineer (CE - Navy), Commander Works Engineer (CWE), Military Engg. Services (MES), Delhi Mumbai Industrial Corridor, HAL, BEL, ADANI Airports, Domestic & International Airports, Air Force Station, ISRO, Government of Telangana & Andhra Pradesh etc.

Electric Fence Energizer manufactured is BIS certified vide **License No.: CM/L 6300150391** against BIS 302-2-76 safety standards valid till 14th May 2031 and other relevant standards like IEC 60335-2-76, IS 8437 Part 1 & 2, RoHS, EMI/EMC.

In addition to the above, list of other major Security systems dealt by CSEC as a Manufacturer/Systems Integrator are:

- **Perimeter Intrusion Detection Systems (PIDS) consisting of Fiber based Intrusion Detection System.**
- **Drain Intrusion Detection Systems (DIDS) with PIR & Vibration sensors.**
- **Other associated products include**
 - **Surveillance systems like CCTV, VMS etc.**
 - **Under Vehicle Scanning System & Automatic Number plate recognition System**
 - **Sliding / Swing Gates with detection and / or deterrent system**
 - **Command & Control Software**
 - **Passive products include**
 - **Weld Mesh panels**
 - **Honeycomb Fence with / without Barbed & Concertina coil fence on it**
 - **Anti-climb Fences etc.**

Perimeter Protection is the modern day need to the growing security threat and it involves denying, detecting while having in built capability to serve as deterrent.

Security system is designed to identify any attempt of intrusion at central monitoring station / control room. Also, the system has the capability of integrating with other security or electrical gadgets and Third-party Command & Control Software like GENETEC, MILESTONE etc.

We have built several High security systems (both from Ground Level & Wall top) for various Defence units, State and Central Government establishments, Refineries, Manufacturing Units, Airports, Jails, Software Institutions, Godowns, Estates, Residential Complexes, Gated communities across the Country. We consider ourselves as a leader and expert in designing & constructing Security Fences on existing walls / ground level. List of our major valued customers speaks about our performance.

We are also Designing, Installing and Integrating most advanced technology-based Solutions which include individual or combination of systems such as PIDS, CCTV, UVSS, ANPRS, DIDS, CCTV, Perimeter Lighting, Motorized Gates, Passive Fence etc.

We hereby invite you to visit our website (www.crownsolarec.com) for more information on technical details and installations. In case of any clarifications, we would be happy to attend to all your queries.

We are looking forward to have a long-term association with you by providing our technology at the most competitive prices with the best quality and more importantly prompt and quality service.
